ysalis

ALL YOU NEED

DESIGN &
TECHNOLOGY
FOR ALL

legrand®

ysalis

DESIGN & UNIQUE

- The perfect range to offer a blend of the latest design and technology
- Contemporary design with large rocker and slim curvy designed plates
- Different modules to choose from 1 to 3 modules and up to 6 modules
- Different kinds of sockets: RSA Current standard, New Standard, Data, Television and USB
- Ysalis range can perfectly adapt to Legrand trunking systems
- All these advantages make Ysalis the ideal range for all projects: residential, commercial and hospitality.

BLACK

MODULARITY

- Switches to blend with your choice
1, 1.5 and 3 modules on the same plate.
- Modular offer to adapt perfectly
to present & future needs of innovation.

ysalis

COMFORT SAFETY
& CONVENIENCE

INNOVATION +

- Modular range.
- Innovative functions which can adapt to current and future innovations.
- Functions which are smart and unique.

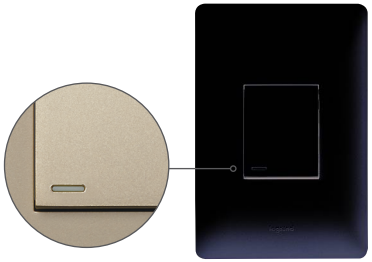

Comfort, Safety & Convenience

UNIVERSAL DIMMER

It can dim all kinds of incandescent & halogen loads. Halogen with ferromagnetic or electronic transformer. Dimmable leds and compact fluorescent lamps.

CAN BE INSTALLED IN EXISTING AND NEW INSTALLATIONS.

INDICATOR ON SWITCH

All the indicators on the switches are made of fluorescent lens. It glows in the dark, which helps identifying where the switch is located.

DISCRETION AND ENERGY SAVING.

DATA SOCKETS

All the data sockets will have toolless connectors. No need for punch down tools. You can re-use the connectors even in case of termination problems.

THE EASIEST INSTALLATION

4"x 4" Plate
2 RJ45 + telephone + TV
WHITE

TV SOCKETS

One of the products dedicated to audio / video connections.

THE DESIRED LEVEL OF ENTERTAINEMENT

2"x 4" Plate

2"x 4" Plate
20A DP switch with indicator
BLACK

ysalis
THE THINNEST
ON THE MARKET

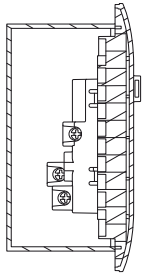

Practical & unique

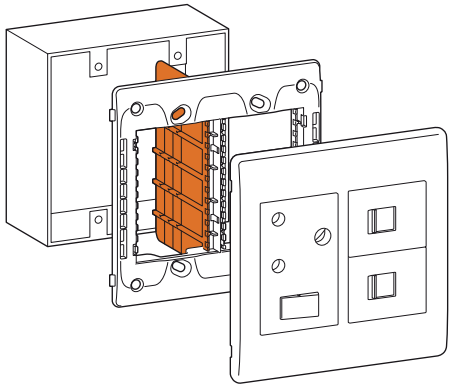

MODULARITY: INCREASE, CHANGE, REMOVE

- No need to break the wall, you can increase, change, remove the number of lighting points, connections with the same box and support.

MECHANISM SIZE OPTIMISATION

- More space in the back box for easy wiring
- 21 mm depth
- Slim mechanism

- Spacer to separate low and high currents

WIRING CAPACITY:

4 X 2.5 MM²

Captive screw terminals

WIRING CAPACITY:

2 X 2.5 MM2

- Mechanism depth: 32.5 mm
- Oriented terminals for easy access
- Captive screw terminals

An effective tool to fight counterfeiting

Each product has a unique registration number. With the Copytracer number, you can immediately verify if it is a legitimate Legrand product or not.

Find the Copytracer label on the product box

To verify the authenticity of Legrand products:

Simply go to http://www.legrand-copytracer.com

Step 1: Create your user account under the **register** tab

Step 2: Identify your product under the **enter copytracer nº** tab

Step 3: In the event of not having a number, go to the **product without copytracer nº** tab

Step 4: If you can't read the number, go to the **illegible copytracer nº** tab

■ Counterfeits are dangerous and present risks for property and persons when used. The Copytracer number ensures that a product is traced and guarantees its production quality.
